To Whom It May Concern:

I have read the Wake County *FAQs/ Standardized Testing and Opting Out* document along with the March 25,2014 memo from Rebecca B. Garland entitled *North Carolina Standardized Testing and Opting Out.*

My signature indicates that I understand the information contained in both documents, including but not limited to state and federal requirements for testing. I also understand any possible consequences that may result from choosing to have my child opt out of testing. I further understand that the school system does not have the authority to provide a waiver to the testing requirements. Nonetheless, I choose to not have my child tested as indicated below.
