Part of the Affordable Care Act, also known as ObamaCare, would expand the current Medicaid Program. Currently, North Carolina has chosen not to expand its Medicaid program. To fund this expansion over the next ten years, the federal government will borrow about $50 billion dollars while North Carolina taxpayers will have to spend another $3 billion. The majority of those covered under this Medicaid expansion will be able-bodied, childless males. With that in mind, do you think that North Carolina should keep its existing Medicaid program or expand it?

CIVITAS

Part of the Affordable Care Act, also known as ObamaCare, would expand the current Medicaid Program. Currently, North Carolina has chosen not to expand its Medicaid program. To fund this expansion over the next ten years, the federal government will borrow about $50 billion dollars while North Carolina taxpayers will have to spend another $3 billion. The majority of those covered under this Medicaid expansion will be able-bodied, childless males. With that in mind, do you think that North Carolina should keep its existing Medicaid program or expand it?

A new program to help families and students is being proposed in many states. Education Savings Accounts - or ESAs as they are commonly known - allow state funds to be used by parents to create a personal account to pay for K through 12 education expenses including, tuition, tutoring, testing, fees and books. Would you say you support or oppose an Education Savings Account program?
