As you may know, the Charlotte City Council passed a new bathroom ordinance for transgender people that allows biological men and biological women, who identify as the opposite sex, to use the bathroom or locker room of their choosing. Now I am going to read you two viewpoints on this topic; please tell me which one you agree with more? (options rotated) Supporters of the ordinance say this is a reasonable and inclusive policy that allows transgender people to use the bathroom or locker room of the opposite sex if it makes them more comfortable. Opponents of the ordinance say this is an unreasonable and unsafe policy because it allows men to use the women's bathroom and locker rooms in front of women and girls.
