QUESTION 24:
As you may know, the Charlotte City Council passed a new Bathroom Ordinance that allowed transgender people to use the bathroom or locker room of their choice - including the bathroom and locker room of the opposite biological sex. Now I am going to read you two viewpoints on this topic and then please tell me which one you agree with more...

Supporters of the ordinance say this a reasonable policy for transgender people who may prefer to use the bathroom of the opposite biological sex because they feel unsafe or uncomfortable using the bathroom of their own biological sex.

Opponents of the ordinance say this is an unreasonable policy because it creates a loophole that gives sexual predators access to women's locker rooms and bathrooms, and women and girls feel unsafe and uncomfortable being forced to share the women's bathroom with a biological man who may or may not identify as female.

And based on what you know, which of the following statements are you more likely to agree with?

The state legislature and Governor were right to act and I agree with their decision to make sure North Carolina had a uniform law across the state and stop the Charlotte Bathroom Ordinance from taking effect.

The state legislature and Governor should not have gotten involved and I disagree with their decision to stop the Charlotte Bathroom Ordinance from taking effect.

QUESTION 30:
There is a proposed state constitutional amendment for voters, A Taxpayer Protection Act, which would place limitations on the amount the state budget could grow every year - largely tied to the growth rate of inflation plus population. There are provisions included which would allow the legislature and governor to override the Taxpayer Protection Act under extraordinary circumstances with a supermajority of legislators voting. Do you support or oppose the Taxpayer Protection Act?
