QUESTION 6:
Now I am going to read you a list of people or entities active in politics or in the news. After I read each name, please tell me if you have a favorable or unfavorable opinion of that person or entity. If you never heard of them, just tell me and we'll go on to the next one.

Pat McCrory

QUESTION 17:
And thinking, for a moment to the Primary Election to be held in June... If the Primary Election for Supreme Court were being held today and you had to make a choice, for whom would you vote between Mike Morgan, Daniel Robertson, Bob Edmunds, Sabra Jean Faires?

QUESTION 19:
Sanctuary cities are local governments that refuse to comply with federal immigration law and do not cooperate in the apprehension and deportation of illegal immigrants. There is a proposal in the state legislature that would withhold state tax money going to those localities for road building and school construction until they change their policies on illegal immigration. Would you support or oppose this law that would withhold some state funds from sanctuary cities?

QUESTION 24:
And regardless of how you feel about giving teachers a pay raise, if a pay raise were to be approved, which of the following methods do you think is the best way to distribute the raises to public school teachers in the state?

QUESTION 26:
The average teacher salary in North Carolina is almost $48,000 a year. Benefits such as healthcare and retirement are valued at about $16,400 per year. So the average total compensation for North Carolina teachers is about $64,400 per year. In your view is this compensation too low, too high, or is it about right?

QUESTION 26:
The average teacher salary in North Carolina is almost $48,000 a year. Benefits such as healthcare and retirement are valued at about $16,400 per year. So the average total compensation for North Carolina teachers is about $64,400 per year. In your view is this compensation too low, too high, or is it about right?

QUESTION 28:
Which of the following statements best reflects your view of the recently passed House Bill 2?

House Bill 2 offers protection of individual privacy and safety in public restrooms and locker rooms, and protects the rights of business owners to make workplace decisions without government interference

...or...

House Bill 2 unjustly discriminates against individuals based on their self-perceived gender and prevents cities from enacting ordinances that would provide open access to public restrooms and locker rooms
