NORTH CAROLINA STUDY / JUNE 21-23, 2016

Now thinking ahead to the November Election, if the election for President were being held today and you had to make a choice, for whom would you vote, Donald Trump, the Republican, Hillary Clinton, the Democrat, or Gary Johnson, the Libertarian?

Civitas

If there was another economic crash this year, like the one that happened in September of 2008, might that change your decision on whom you plan to vote for in November?

NORTH CAROLINA STUDY / JUNE 21-23, 2016

If there was another economic crash this year, like the one that happened in September of 2008, might that change your decision on whom you plan to vote for in November?

And thinking for a moment about voting for judges in North Carolina. If all things were equal, and you had to make a choice for judge based solely on party, would you vote for the Republican or the Democrat?

In your opinion, which is the way North Carolina should choose appeals court judges:

Continue to elect them in statewide elections as they currently are.

...or...

Switch to a system where state appeals court judges are selected by the legislature for eight-year terms.

State health insurance mandates are state laws that require all health insurance plans offered in the state to cover certain procedures and conditions. Which statement best reflects your views when it comes to health insurance mandates:

State government should not dictate to health insurance companies what must be covered in all policies. Instead, insurance providers should be free to offer different coverages in a variety of plans and allow consumers to choose what best suits their needs.

State health insurance mandates are necessary and should be implemented so that health insurance companies will cover drugs, procedures, and conditions that they may not otherwise cover because they are too expensive.

Given the rise of prescription drug abuse across the country, would you be in favor of state government requiring health insurance companies to pay a certain price for opioid painkillers that are equally addictive and more expensive, but more resistant to crushing or melting, even if this mandate would raise premiums for everyone?

NORTH CAROLINA STUDY / JUNE 21-23, 2016

Given the rise of prescription drug abuse across the country, would you be in favor of state government requiring health insurance companies to pay a certain price for opioid painkillers that are equally addictive and more expensive, but more resistant to crushing or melting, even if this mandate would raise premiums for everyone?

Civitas

Many law enforcement agencies in North Carolina use funds to buy body cameras for law enforcement personnel. The North Carolina Legislature is currently crafting legislation to determine who can see and access the footage recorded. In your opinion, who should be able to view law enforcement body camera recordings?
