Still thinking about this issue... Please tell me which of the following laws is more fair...

House Bill 2 provides that in most government buildings admission to restrooms, locker rooms, showers and other changing rooms is based on biological sex, which is what is recorded on a person's birth certificate -- North Carolina law states that a birth certificate can be changed if a person's biological sex has been changed -- House Bill 2 also stipulates that while government buildings have those provisions, private businesses are allowed to establish their own bathroom and changing room policies.

The Charlotte Ordinance and Obama Administration say admission to restrooms, locker rooms, showers and other changing rooms should be based on an individual's sense of their own sexual identity and no other requirement. It would force all private businesses and non-profits which have such facilities to abide by this rule.

CIVITAS

Recently the ACC and the NCAA have pulled their championship games out of North Carolina. The reason for this, they say, is due to House Bill 2, which Governor McCrory signed into law. Does this make you more likely or less likely to vote for Governor McCrory, or does it not impact your vote?

CIVITAS

Recently the ACC and the NCAA have pulled their championship games out of North Carolina. The reason for this, they say, is due to House Bill 2, which Governor McCrory signed into law. Does this make you more likely or less likely to vote for Governor McCrory, or does it not impact your vote?
