QUESTION 25:
In fall 2017, a requirement of the 2016 state budget requiring smaller class sizes takes effect in North Carolina Public Schools. Proponents say the new law will lead to smaller classes and better instruction. Critics say it will force districts to hire more teachers and cutback on non-classroom staff. Some legislators are working to change the law. With that in mind, do you support or oppose the class size law?

QUESTION 25:
In fall 2017, a requirement of the 2016 state budget requiring smaller class sizes takes effect in North Carolina Public Schools. Proponents say the new law will lead to smaller classes and better instruction. Critics say it will force districts to hire more teachers and cutback on non-classroom staff. Some legislators are working to change the law. With that in mind, do you support or oppose the class size law?

QUESTION 27:
Currently there is a bill in the legislature that would lower the state's individual income tax rate from 5.499 percent to 5.35 percent. It would also cut taxes in other ways, such as increasing the standard deduction from $17,500 to $20,000 for married couples filing jointly, and $8,750 to $10,000 for single filers. Would you support or oppose this bill to cut state income taxes?

Now I am going to read you two opinions on what should happen to the Affordable Care Act, also called ObamaCare, and I would like you to tell me which most closely reflects your position on what should happen with it. Even if neither opinion is exactly what you want, please tell me which one you MOST agree with...

The entire law should be repealed.

...or...

The entire law should stay exactly as is.
